# Solve Our Riddles

Mrs. Marcus's students wrote number riddles and challenged their classmates to solve them. Can you solve them? (**Hint:** Start with the final number and perform each step in reverse order using the opposite operation.) Once you find the beginning number, go back and check your answer by following the steps of the riddle. If you end up with the same final number, you did it correctly.

- A. Martin picked his number.  
Then he added 254 to it.  
Then he divided by 5.  
Then he added 12.  
His final number was 77.

What was his beginning number? \_\_\_\_\_

- B. Cindy picked her number.  
Then she divided by 6.  
Then she added 2.  
Then she multiplied by 5.  
Her final number was 150.

What was her beginning number? \_\_\_\_\_

- C. Tom picked his number.  
Then he multiplied by 2.  
Then he added 433.  
Then he divided by 5.  
His final number was 101.

What was his beginning number? \_\_\_\_\_

- D. Leah picked her number.  
Then she divided by 12.  
Then she added 19.  
Then she divided by 9.  
Her final number was 3.

What was her beginning number? \_\_\_\_\_
